PRESIDENT, LEER ELECTRIC

EMPOWERING CUSTOMERS FOR 40 YEARS

FROM CONSTRUCTION, SERVICE, DESIGN, DATA TO INSTALLATION AND REPAIR, Leer Electric provides a full range of electrical contracting and 24-hour emergency services to customers in Central Pennsylvania.

According to General Manager Jeff Metzler, although the company handles everything from residential to commercial and industrial work, many of its projects are for public schools and federal military bases in the area. Specifically, data communications and fiber optic work is an increasing segment of the Leer Electric's service business.

Whether you need complete electrical system design, engineering and construction, project management or emergency electrical repairs, Leer Electric can provide the services you need. Our capabilities range from the conventional to the unique, and we are prepared for the challenges of virtually every project. That includes services encompassing design build, plan spec, bucket trucks, energy-saving lighting upgrades, data and fiber.

As Leer Electric has evolved and expanded over the years, the company has always strived to promote innovative ideas and forward thinking while maintaining a family atmosphere among employees. That includes helping in the community. In 2011, employees donated their time and worked on the Extreme Home Makeover project in Lewisberry. Since 2000, the company has donated more than \$40,000 to community groups and nonprofit organizations.

Leer Electric has built a reputation over the last 40 years and is looking to continue that long into the future following this mission statement: Every day, each employee at Leer Electric contributes to our established reputation as a trusted leader in the electrical industry. We achieve this through our guiding principles of quality, education, versatility and communication. These principles empower Leer Electric to partner with our employees and customers to help them fulfill their goals.

1973 & 2013	FULL-TIME EMPLOYEES	GROSS REVENUE	PRESIDENT	PRODUCTS/SERVICES	GEOGRAPHY COVERED	LOCATIONS
	3	15,000-\$20,000	Steve Leer	1	10-mile radius of Dillsburg	1
